

# The MALIT Challenge

## Key Features:

- ✓ Develop the independent learning skills of your able learners.
- ✓ Equip able learners to maximise their potential.
- ✓ Activities designed to motivate and challenge.

Stretching Gifted and Talented students is now firmly back on the national agenda. MALIT have been running successful projects with G&T students since 2004 and have developed high quality, high impact modular courses for these students. Our trainers can also work with your school/college to help them to attain National Quality Standards Exemplary levels for Gifted and Talented Education.

## Course Formats:

- One day course.
- Key Stage 3/4: Up to 6 days.
- Optional training sessions for staff and parents.

## Your Students will learn:

- Key independent learning skills.
- Key personal, learning & thinking skills (PLTS).
- Proven techniques to motivate and set personal goals (ensuring students develop high expectations of themselves).
- Social and Emotional intelligence development (and why this is so important for G&T students for their future careers).
- Develop outstanding thinking skills for University and beyond.
- How to get Mind and Body in the Zone.

## Your Students will experience:

- Interactive, challenging days of learning led by outstanding trainers.
- Being part of a group that is involved in creating a innovative project.
- Training that unlocks their creativity.

*"Pupils all came away talking about how they can make their revision more fun and actually remember key facts... the presenter connected well with all pupils, so much so they were asking when their next session was."*

- Caroline Webster, St. Edwards College, Liverpool

## Your Students will leave with:

- A comprehensive course booklet.
- Strategies to maximise their grade potential.
- Personal targets based on their learning.
- Greater confidence in expressing themselves as learners.
- Access to downloadable materials and podcasts from the MALIT website.

## Your School/College will be left with:

- Advice on how to personalise the curriculum for members of the G&T cohort (helping to maximise added value to the school and themselves!).
- Access to all MALIT resources we use for Gifted and Talented students.
- Advice on how to integrate G&T provision into the mainstream curriculum in order to hit National Quality Standards Exemplary levels in Gifted and Talented Education.
- Cross reference to (PLTS).
